

PHOENIX PROJECT OKLAHOMA

Women Helping Women

Purpose and Mission

To connect with women who are hampered in their quest for employment by time restraints, physical capabilities, and/or other hindrances such as dependency on social programs which dictate that they can earn so little each month that employment is impossible or improbable;

To act as a hub to offer writing and publishing services to new and independent writers: services such as typing, editing, proofing, typesetting, ghost writing; matching the skills of these women to the needs of the writers,

Thereby offering these persons a way to work as much as they are able or are permitted under each circumstance;

Thus, benefiting both sides by providing a means for these persons to realize extra income from their own skills and endeavors, that will hopefully enable them to somewhat rise from the ashes to their realization of new hope for their future.

*CONNECTING INDEPENDENT AUTHORS TO THE SERVICES THEY NEED,
OFFERED BY TALENTED WOMEN IN NEED OF EXTRA INCOME.*

WOMEN WANTING TO WORK

The Phoenix

The Phoenix Project has four talented women who are supplementing their meager income by editing, writing, typesetting, formatting digital books, and so forth for the project at this time. Their stories will appear as this website is established.

At this point they have helped four authors check their manuscripts, complete their book and polish their writings to the complete satisfaction of the authors.

Please contact Danna G. Hallmark, manager of the Phoenix Project Oklahoma for information:
